

Kobian Offers Unique Experience with Their Power Product Series

May 25, 2010 1603 hrs IST

Manufacturer of computer peripherals under the brand Mercury, Kobian have announced the launch of their Power Product series in India. **Mercury Elite 650 PRO UPS** is designed for corporate, small and medium business and home segment. The new UPS is designed to meet the need of today's world, it comes with an inbuilt wide input range of 140~300VAC and also includes output short circuit protection and features like overcharge protection with sleek and compact design with CPU control. The battery rating has been improved for longer lifecycle and new firmware

enhances the battery life and improves backup time. Furthermore, compact design will add value on savings at domestic freight cost.

On this occasion, **Sushmita Das**, Country Manager, Kobian said, "It gives us great pleasure to launch our Power Product series in India starting with Home Segment UPS - **Mercury Elite 650 PRO, Elite 800 and Elite 1200 UPS**. The series has the complete series of Online UPS and Home series-Inverters. This is our attempt to bring value solutions to the consumers after understanding their need and demand. We are launching the **Elite 650 PRO** for the home and SOHO segment with a focus on the specifications and requirement of the masses."

This device will be available across the country with the company's distributors and is priced at Rs. 1,680 (MRP).
