KOBIAN UNVEILS MERCURY HIGH SPEED USB DRIVES

-Faster, Fashionable and Affordable-

Kobian, one of the leading brands in PC peripherals, announces the launch of their series of **Mercury High Speed Flash Drives**. The unique innovative design makes Mercury USB drives stand out in the market. The flash drive is designed with an *innovative extension mechanism* which allows the USB connector to slide out or hide in with a single flick of the thumb. Its capless design not only keeps dust and debris out of the drive, but also ensures there is no cap to misplace or lose. Mercury USB drive amalgamates style with technology. The drive has an elegant contoured pearl white body with a bright LED indicator that flashes during data transfer activity. This trendy USB drive is also rugged enough to withstand the harsh handling with its Anti Shock and Moisture proof properties. The capless design is for everyday users where losing USB end caps can be quite annoying, not to mention the inconvenience of taking the cap on and off every time the drive is used! On this launch **Ms. Sushmita Das, Country Manager Kobian Pte Ltd.** said, "At Mercury, we try bring the technology in an affordable and attractive package! Mercury Mobile Drives are an extension of the same. With a streamlined design, ample storage capacity, and high speed transfer rate, the Mercury USB drive is perfect for storing and transferring data & multimedia files."

The Mercury Mobile Drive series extends from 4GB to 64GB Capacity is a true plug and play device providing a fast USB2.0 connectivity. It supports Windows, Mac & Linux operating system without device driver. The product shall be available across Kobian Distributors in India.
